Aug 7th 1917

Dear Mr. Raemaekers,

I am going to ask you to do me a very great favour and design me a poster for our big house Scheme of which I

enclose particulars. I am sure you will appreciate the great necessity for an appeal and of course it could not be launched more auspiciously than by one of your splendid drawings which would be an irresistibly eloquent challenge to the public imagination.

I need hardly say how intensely grateful we should be to you if you could see your way to giving us this most valu-

able help.

Yours Sincerely

Elizabeth Asquith
