Hotel Gassion, Pau. (Fr.)

November 29th 1910.

Joseph Levansaler, Esq.

U. S. Navy. Washington.

My dear Mr. Levansaler,

I have waited to answer your very kind letter of October 21st till I could send you at the same time the two cartoons. They are sent by separate parcel as registred letter and I am sending them to you. though I am not sure that this was the address mentioned in the first letter about this matter. However I hope you will eventially be kind enough to f forward the roll. I left England since a fortnight and will live here some time to restore my physic a bit, as the last fi years have damaged it rather. But my files of correspondence have not yet followed me here, so I can not look up that first le ter.

I return the signed papers which you sent to me with so much foresight to facilitate matters, as it certainly will.

On the two cartoons I wrote some words, which I want to be regarded only as a suggestion, and which are entire subject to your corrections or alterations.

Will you please give my kindest regards to Comman C. B. Mayo, of the Sixth Division, and tell him that it has been a pleasure to me, to try by some cartoons to prevent in some cases young fellows running to their doom.

Believe me yours ver sincerely

Enclosures.
